## PROJECTS

**Flyaway: Stay Booking Platform — MongoDB, EJS, Express, Node.js**   Link to Demo

Developed a full-stack stay booking platform using MongoDB, Express.js, and Node.js with EJS for server-side rendering.

Designed dynamic, responsive UI using EJS templating and Tailwind CSS for listing and booking management.

Implemented RESTful routes and backend logic for user authentication and property operations.

Ensured clean MVC structure and modular code for maintainability.

**Criczard:Live Cricket Commentary Feed — React.js,Node.js, Socket.IO, Fluvio**   Link to Demo

Developed a real-time full-stack application to stream cricket commentary using MongoDB, Express.js, React, and Node.js.

Integrated Fluvio with Node.js backend for high-throughput event streaming; used Socket.IO to deliver updates to frontend.

Built a responsive React frontend with Ben 10-themed UI for dynamic commentary updates and match reactions.

Implemented backend logic for tracking Fluvio offsets to resume commentary after client reconnects.
